Mr. Dulles has asked me to acknowledge and
thank you for your telegram of 11 November
requesting an appointment with him.

While we feel that our [redacted]

[redacted] offices with which you have
been in contact are competent to handle official
matters for the Agency, if you feel that you
are not receiving entirely satisfactory con-
sideration through these offices, I will be glad
to see you at your convenience any time you are
in the Washington area.

25X1

25X1

Sincerely,

[redacted]

[redacted]
Assistant to the Director

MEMORANDUM FOR: Assistant Director for Operations

SUBJECT:

25X1

25X1
25X1

25X1

25X1

1. The [redacted] office has been in intermittent contact with Mr. [redacted] since 1948. These contacts have been at his request because we have never considered him a source worth developing. Much of what he has told us has been a distorted version of what is already well known; most of the rest has consisted of his fears of Communist inroads in Latin America, but the foreign positive intelligence content of these comments has been nil. It is our understanding that representatives of WH Division, DD/P have been in contact with Mr. [redacted] over approximately the same period of time and that their estimate parallels ours.

2. On 22 September 1959 Mr. [] told our [] Office that he would not give CIA any more information because the information he had passed to the Agency on various Latin America countries and personalities had leaked back to the countries of origin. He claimed that he had been informed of these leaks by members of the Secret Service of these countries with whom he kept in contact. On the same day Mr. [] called from New York to our []

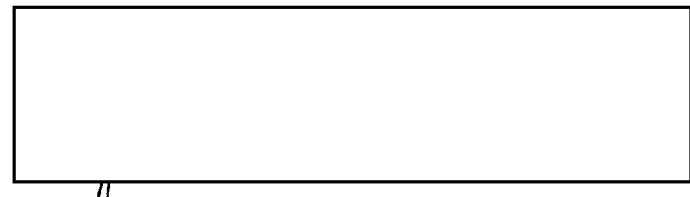

Office and asked to speak with Mr. [redacted] whom he claimed to know personally. Mr. [redacted] took the call and listened to Mr. [redacted] complaints and assured him they would be sent to the proper authorities in the Agency. The information was passed to the Office of Security and CI Staff.

3. [redacted] indicates that this Division has had only two reports from him in 1959. One was not disseminated; the other was a one-paragraph [redacted] consisting of not very sensitive material that became overt information within a week of dissemination. [redacted] prior to 1959 yielded one report in 1955 and several in 1948 and 1949. None of the information in these reports is so sensitive that it could be traceable to one man, nor was the information of a particularly vital nature.

Subject: Robert T. Brinsmade

4. In view of the foregoing, we recommend that Mr. [redacted] 25X1
not be given an appointment with the Director or Deputy Director. 25X1
We are completely amenable to his being referred to [redacted] 25X1
in our [redacted] Office but suggest that this may not satisfy 25X1
him. In this event it would appear that an interview by [redacted] 25X1
[redacted] or other official close to the Director might be more ap- 25X1
propriate.
